

A B-U-G

Words and Music by Sha Armstrong

CHORUS *A B-U-G, a B-U-G,
Everywhere I look I see a B-U-G.*

1. They live under the carpet,
They live under the stair,
They live inside the cupboard
Crawling everywhere.

CHORUS

2. They hide down in the cellar,
They hide under the ground,
They hide in the dark corners,
Crawling all around.

CHORUS

3. They play out in the garden,
They play under the swing,
They play round by the dustbin,
Crawling on everything.

*A B-U-G, a B-U-G,
Everywhere I look I see a B-U-G.
Everywhere I look I see a B-U-G!*

What are the children's ideas of a 'bug'? Do they imagine real bugs (eg ants, beetles, spiders, centipedes, etc) or cartoon-type 'bugs'?

Create some imaginary bugs using cotton wool, pipe cleaners, string, cardboard – anything you have to hand – and then build a model 3D room or house to reflect the song. The children can place their bugs amongst the cupboards, corners and carpet of the model.
